Recover your quality of life
without drugs, side effects or surgery.

Physical therapy is the clear choice!

Choose Physical Therapy to relieve

ANKLE/FOOT PAIN

Recover your quality of life

www.bandgpt.com

Physical therapists (PTs) are experts in the art and science of the evaluation and treatment of human movement dysfunctions. We care for people of all ages and treat a variety of muscle, joint and neurological conditions.

Conditions we have successfully treated:

- Ankle pain
- Shin splints
- Ankle sprains
- Plantar fasciitis
- Achilles tendonitis
- Excessive pronation
- Post surgical conditions
- Tibialis posterior tendonitis

What are my treatment options?

- Drugs
- Corticosteroid Injections
- Surgery
- **Physical Therapy***

Advantages of Physical Therapy:

- No side effects
- Cost-effective
- Supported by clinical research*
- Customized to treat the underlying cause

Your Recovery Process:

- Pain relief
- Recovery of mobility or stability
- Increased strength
- Recovery of walking and functional skills
- Independent care

Components of Your Care:

- A thorough biomechanical evaluation
- Extensive patient education
- A customized treatment plan
- Gentle hands-on techniques to relax the muscles
- Effective joint mobilization techniques to decrease stiffness
- Pain relieving modalities such as ice, heat, ultrasound or electrical stimulation
- Targeted stretching for tight muscles
- Walking retraining
- Balance exercises
- Shoe inserts (orthotic recommendations)

Everyone is different. You may require one or two visits, or an extended care plan over several weeks or months.

Make an appointment today.

Start feeling better tomorrow.

- Call to schedule a consultation.
- Visit our Web site for answers to frequently-asked questions.
- Ask your physician to complete our referral form.

If you're ready for relief,
and tired of "masking" your pain,
treat the cause, not just the symptoms!
